Testimonials

Candidate Referral

Chief Commercial Officer (USA)

“my experience with BOSS Energy was exceptional. [Their] constant communication helped me considerably. I was always well prepared for each and every call and interaction with the client. This is extremely important due to the fact that I had a very demanding job and schedule.

I found the process efficient and very well executed. [They] were a huge help in not only finding the right job and organization, but in helping my transition and comfort factor throughout the entire process. I would highly recommend both BOSS Energy to any looking to make a career change.”

Client Referral

SVP Human Resources – Leading Energy OEM (EMEA)

“Boss Energy is a trusted partner to us. [Their Director] has a strong understanding of our strategic business needs – both technically and culturally.

The quality of the carefully selected candidates is outstanding and the communication during the entire recruitment process with us and the candidates is of high responsiveness, fast speed and seamless”
